1. Introduction

The Government has recognised that fewer people are using Post Office[®] branches, partly because traditional services, including benefit payments and other services are now available in other ways, such as online or directly through banks. It has concluded that the overall size and shape of the network of Post Office[®] branches (“the Network”) needs to change.

In May 2007, following a national public consultation, the Government announced a range of proposed measures to modernise and reshape the Network and put it on a more stable footing for the future. A copy of the Government’s response to the national public consultation (“the Response Document”) can be obtained at www.berr.gov.uk/consultations/page36024.html.

Post Office Limited has now put in place a Network Change Programme (“the Programme”) to implement the measures proposed by the Government. The Programme will involve the compulsory compensated closure of up to 2,500 Post Office[®] branches (out of a current Network of 14,000 branches), with the introduction of about 500 service points known as “Outreaches” to mitigate the impact of the proposed closures. Compensation will be paid to those subpostmasters whose branches are compulsorily closed under the Programme.

To support the necessary changes to the Network and put it on a more stable footing and to support the reshaped Network of the future, the Government has proposed an investment of up to £1.7bn as a funding package.

The majority of Post Office[®] branches - more than 80% - will not change as a result of the Programme. Post Office Limited is seeking to implement those changes that do take place as efficiently and sensitively as possible.

One of the key ways in which Post Office Limited will make sure that people continue to have the best possible access to Post Office[®] services is by applying the minimum access criteria prescribed by the Government in the Response Document:

Nationally:

- 99% of the UK population to be within 3 miles and 90% of the population to be within 1 mile of their nearest Post Office[®] branch.
- 99% of the total population in deprived urban¹ areas across the UK to be within 1 mile of their nearest Post Office[®] branch.
- 95% of the total urban² population across the UK to be within 1 mile of their nearest Post Office[®] branch.
- 95% of the total rural³ population across the UK to be within 3 miles of their nearest Post Office[®] branch.

¹ Deprived urban – The most disadvantaged urban parts of the UK based on the Indices of Multiple Deprivation (top 15% Super Output Areas in England, 15% of Data Zones in Scotland and 30% of Super Output Areas in Wales and Northern Ireland).

² Urban – A community with 10,000 or more inhabitants in a continuous built up area.

³ Rural – A community not covered by the definition of Urban above.

In addition, for each individual postcode district:

- 95% of the population of the postcode district to be within 6 miles of their nearest Post Office[®] branch.

Changes to the Network can only take place within the prescribed access criteria.

In order to deliver the changes set out in the Response Document, Post Office Limited has divided the UK into 47 areas ("Areas"). For each of these Areas Post Office Limited will develop a local area plan proposal ("Area Plan Proposal") which will set out the changes that it proposes to make within it. The Area Plan Proposal for Herefordshire, Worcestershire and the West Midlands has been developed and in this booklet you will find information on the changes proposed for Herefordshire, Worcestershire and the West Midlands. Full details of the Area Plan Proposal for Herefordshire, Worcestershire and the West Midlands are available on our website www.postoffice.co.uk/networkchange or by contacting us at the address given below.

When developing the Area Plan Proposal for Herefordshire, Worcestershire and the West Midlands, Post Office Limited analysed a number of factors. These included the proximity of the Post Office[®] branches proposed for closure to other nearby branches, the number of customers currently using a particular Post Office[®] branch, the size and ability of nearby branches to absorb extra customers, and the commercial implications of any decision for Post Office Limited.

Post Office Limited has also taken into account obstacles such as rivers, mountains and valleys, motorways and sea crossings to islands in order to avoid undue hardship to customers. In addition, the availability of public transport, alternative access to key Post Office[®] services (such as cash withdrawals, bill payments, mail services), local demographics and the impact on local economies have all been considered. Post Office Limited has sought information from a number of external organisations and people, including subpostmasters, local authorities and regional development agencies to assist with this process.

Postwatch, the independent consumer watchdog for postal services, has worked with us in assessing the options for change during the period leading up to the publication of the Area Plan Proposal. Post Office Limited has also engaged with other stakeholders, including relevant MPs.

Local Public Consultation

Each Area Plan Proposal is subject to local public consultation to ensure that the views of local people are taken into account before any final decisions are made by Post Office Limited.

The local public consultation on the Area Plan Proposal for Herefordshire, Worcestershire and the West Midlands will commence on 27 August 2008.

The local public consultation will last for a period of six weeks and the closing date for feedback is 7 October 2008. Please send your views and comments in writing regarding access to future Post Office[®] services in this Area to the address detailed below (payment of postage is not required to a Freepost address). Please note that your comments will not be kept confidential unless you expressly ask us to do so by clearly marking them 'In Confidence'.

2. The Area Plan Proposal for Herefordshire, Worcestershire and the West Midlands

Post Office Ltd is acutely aware of the concerns that changes – including closures – affecting Post Office[®] branches in the Herefordshire, Worcestershire and the West Midlands area will cause. To fulfil the Government's requirement to reduce the overall size of the Post Office[®] network ("the Network"), Post Office Limited is implementing the programme in a way which creates similar results across the UK as a whole, and ensures that no group of inhabitants at an area level is overall significantly more adversely affected than any other.

The purpose of this local public consultation is to obtain your views on Post Office Limited's proposals to ensure that the branches that are ultimately selected for closure, or closure and replacement with an Outreach Service, are appropriate. From the outset of the Network Change Programme, Post Office Limited has made it clear in its communications that the Programme is not designed to provide a forum for debate on whether branches should close, but is about ensuring that Post Office Limited has the best available knowledge to allow it to make the most informed decisions about which branches should close.

Post Office Limited is proposing to retain a total of 320 Post Office[®] branches across the region, but to close 56 existing branches, as well as establish 13 outreach service points, which would use innovative ways to continue to provide Post Office services in some areas where the existing branch is proposed for closure.

If these proposed changes take place, Post Office Ltd will remain the largest retailer by network size in the area, and will still have more branches open than the number of branches of major banks and building societies combined. It will mean that 99.6% of the population will see no change to the branch that they currently use or will remain within one mile of an alternative outlet.

At present the area's 1.8 million residents are served by a total of 376 branches. Usage of Post Office[®] branches is falling, in line with national trends, as more customers access services at other places, make more use of the internet and have their Government benefits paid directly into bank accounts.

This Area Plan Proposal supports achievement of the national accessibility criteria set by the Government, forms part of an overall reduction in the number of branches by up to 2,500 across the UK and does not disproportionately affect the inhabitants of the area relative to other parts of the UK.

In addition to meeting these criteria, when preparing this Area Plan Proposal Post Office Ltd has considered factors relating to geography, the availability of local transport and alternative access to key Post Office[®] services, local demographics and the impact on local economies. All branches where changes are proposed have been visited by members of Post Office Ltd's staff to make sure that local factors that needed to be considered in developing an Area Plan Proposal have been assessed first hand.

Herefordshire, Worcestershire and the West Midlands communities are diverse in nature – densely populated urban areas around Wolverhampton, Walsall and Dudley to the rural areas across both Herefordshire and Worcestershire. Across the area, 26.5% of the population live in rural communities and 73.5% in urban towns and cities. In order to meet the Government's access criteria and avoid undue hardship, Post Office Ltd is proposing a future Network in the region comprising 183 branches in urban towns and cities, 62 of which are in urban deprived areas and 137 are in rural areas.

The needs of those living in communities defined as deprived have been carefully considered in this Area Plan Proposal, reflecting the specific national criteria set by the Government to give greater safeguards on the accessibility of branches in these communities. Some 18.3% of the region's total population live in deprived communities, 17.6% of them in urban areas and 0.7% in rural areas.

Post Office Ltd has engaged with various stakeholders when preparing this Area Plan Proposal. We have consulted with the independent consumer watchdog on postal services, Postwatch, and have asked all local authorities within the Herefordshire, Worcestershire and the West Midlands area to provide information and views relevant to the factors which we are able to consider. Our aim throughout has been to minimise the impact, as far as possible, on our customers and to produce the most effective overall proposal for the future.

In our conversations with stakeholders we have been made aware of regeneration plans for up to 2026 which affect areas within the overall proposal, and we have taken these into consideration when constructing the Area Plan. These include submissions from the Black Country Joint Core, Worcester City Council, Wychavon District Council, Walsall Metropolitan Borough Council, Wolverhampton Metropolitan Borough Council, Redditch District Council and Herefordshire Council. Our proposed Network for the Herefordshire, Worcestershire and the West Midlands area takes account of the locations affected by these and other schemes, their likely implementation timescales, and has regard to the needs of the communities affected by these changes. We will keep provision under review should demand increase beyond anticipated levels in the future.

The Black Country Joint Core has advised us of £600 million of public/ private investment in Walsall town centre over the next 10/ 15 years and the proposed new settlements across the area between 2001 and 2026. Wolverhampton Metropolitan Borough Council has advised us of their 30 year vision encouraging substantial growth by 2031, including new homes; business and retail units. Proposals detailing business and private development have been received from Wychavon District Council, Redditch District Council, Herefordshire Council and Worcester City Council.

In finalising the Area Plan Proposal all branches were carefully considered against the Government's minimum access criteria which Post Office Ltd must meet, and has had regard to the other factors that we must consider. As those factors were reviewed and information from stakeholders was considered and assessed, 14.5% of the initial Area Plan Proposal has been changed.

Future service provision:

The Area Plan Proposal envisages a Post Office[®] Network of 320 branches in the Herefordshire, Worcestershire and the West Midlands area, which ensures that Post Office Ltd would comply with the minimum access criteria set by the Government. For 91.7% of customers this would mean no change to the Post Office[®] branch that they currently use.

The network now proposed for Herefordshire, Worcestershire and the West Midlands continues to offer better access to services than that of any similar organisation, while accepting the Government's decision to reduce overall branch numbers. Subject to the Government's overriding criteria, we have considered geography, transport provision, demographics and local economic impact where appropriate. We are pleased to maintain 55 branches that support the only essential retailer in their community and 98 that provide the only access to cash in a particular community.

Post Office Ltd understands the importance of its role in both urban and rural communities and is keen to continue to provide access to services for as many customers in as many of these communities as possible. We have also considered the relative convenience of alternative branches for those customers whose closest branch is proposed for closure.

Of the 8.3% of customers who use a branch that will close, 7.9% would have access to Post Office® services within one mile as measured by road distance (2% being within half a mile of their nearest alternative). In total 99.6% of the population will either see no change, or will be within one mile of an alternative branch.

Post Office Ltd is keen to assist as many customers as possible to access information and take part in the consultation process concerning the Network Change Programme. As part of the six week local public consultation period, Direct Enquiries the Nationwide Access Register and source of information for people with disabilities, the elderly and people with pushchairs, has conducted an independent access assessment of each of the Post Office® branches in the Herefordshire, Worcestershire and the West Midlands Area Plan Proposal. These assessments are published on their website (www.directenquiries.com).

Through Direct Enquiries, customers can also take part in the local public consultation about proposed closures in the area by completing a questionnaire at www.directenquiries.com. Customers with no internet access should contact Direct Enquiries on 01344 360 101 or textphone 01344 457 200 to be sent a copy of the questionnaire.

Next steps....

During the local public consultation, which will end on 7 October, we will seek views on the proposed future service provision in the region as outlined in this Area Plan Proposal.

Subject to the conclusion of the local public consultation period and after consideration of feedback received, no changes would be implemented before November 2008.

Post Office Ltd is at a crucial point. Customer numbers are falling, customer habits are changing and many of our traditional services are available elsewhere. It is essential that the changes, which include a reduction in the number of branches, are made if the Network is to have a sustainable future. We therefore welcome your views and comments regarding access to future Post Office® services in this area. In particular we ask for your views on accessibility to the nearest Post Office® branch.

postwatch

The consumer watchdog

Postwatch is the independent watchdog for postal services, created by the Postal Services Act 2000. Postwatch is working with Post Office Limited and local communities throughout the programme to help secure the best possible outcome for customers.

What Postwatch will do

Postwatch operates through nine regional and national committees across the UK. Postwatch's role during the programme – prescribed by government - is to scrutinise Post Office Limited's proposals and give feedback, ensure local consultations are meaningful, and that Post Office Limited's decisions are sensible and in line with government criteria.

Each Postwatch regional office investigates Post Office Limited's closure proposals. Postwatch receives area plans in advance of public consultation, allowing the time to examine proposals, and Post Office Limited the chance to refine their proposals before going to public consultation.

Once public consultation is underway, Postwatch works to raise awareness of local consultations, and encourage participation. Postwatch will also work to ensure the minimum access criteria set out by the government are maintained.

Where Postwatch thinks proposals are unsatisfactory, they will work with local communities and Post Office Limited to address these problems. There is an agreed review mechanism between Postwatch and Post Office Limited for such instances. It is important to note that Postwatch does not have a power of veto on Post Office Limited's decisions.

Further information

Postwatch and Post Office Limited have agreed a Memorandum of Understanding, which sets out in detail the role Postwatch will play in the Programme. This is available on the Postwatch website at www.postwatch.co.uk.

4. Proposed Outreach Service Points

In some cases, Post Office Limited is proposing to mitigate the impact of a proposed branch closure by putting in place an Outreach Service. Outreach Services are an innovative way to continue to provide Post Office[®] services and a means by which Post Office[®] products and services are provided by a 'Core' Subpostmaster (who already operates a Post Office[®] branch in the community) to nearby communities.

Outreach Services build on Post Office Limited's experience of successfully operating over 250 satellite branches since 2000 and have been tried and tested in a number of pilot schemes.

There are currently four different Outreach Service models: the Mobile Service, the Hosted Service, the Partner Service and the Home Service. Details of the current Outreach Service models are set out below.

Mobile Service

The Mobile Service is a travelling Post Office[®] situated within a mobile vehicle and brings Post Office[®] and retail products and services to communities without relying on fixed premises. The Mobile Service is provided from the back of the vehicle with a Post Office[®] counter inside. The vehicle has an access lift so that disabled customers can also access the vehicle.

The Mobile Service will be operated by a Core Subpostmaster from his nearby Core Post Office[®] branch. The vehicle will visit communities at specified times and days each week and will park at a pre-determined central and safe location.

The technology used in the vehicle means that the Core Subpostmaster (or his staff) are able to provide our customers with a range of Post Office[®] products and services including:

- Post Office[®] Card Account.
- Postage and Post Office[®] Savings Stamps.
- Bill and Budget Payment Schemes.
- Financial and Banking Services.
- Telephony products including Homephone.

Other products and services including car tax, travel money, travel card and travel insurance may also be available if these are available at the Core Post Office[®] branch.

Hosted Service

The Hosted Service provides customers with access to a range of Post Office[®] products and services at a fixed site during specified hours on set days.

The Core Subpostmaster will provide the Hosted Service from the premises of a local business or a community building such as a shop, café, church, garage or village hall ("Hosted Premises"). The Hosted Premises will set aside space for the portable Post Office[®] computer equipment. The provision of a Hosted Service maintains a Post Office[®] presence in the community and may also lead to increased sales for the Host if the Hosted Premises contain a retail business.

The Hosted Service provides customers with a range of Post Office[®] products and services including:

- Post Office[®] Card Account.
- Postage and Post Office[®] Savings Stamps.
- Bill and Budget Payment Schemes.
- Financial and Banking Services.
- Telephony services including Homephone.

Other products and services including car tax, travel money, travel card and travel insurance may also be available if these are available at the Core Post Office[®] branch.

Partner Service

The Partner Service provides Post Office[®] products and services to customers at a fixed site through a third party retailer.

The Partner Service can be operated from many types of existing business premises including convenience stores and cafés. The Partner provides Post Office[®] products and services to customers from his premises on behalf of the Core Subpostmaster. The Core Subpostmaster will provide support and assistance to the Partner in managing the Partner Service. The Core Subpostmaster pays the Partner for operating the Partner Service which is provided from a fixed counter position within the Partner's Premises. The Partner Service will be available to customers during the same hours as the normal opening hours of the Partner's retail business.

The provision of a Partner Service maintains a Post Office[®] presence in the community and may also lead to increased sales at the retail business of the Partner.

A wide range of Post Office[®] products and services are available from the Partner Service including:

- Post Office[®] Card Account.
- Postage and Post Office[®] Savings Stamps.
- Bill and Budget Payment Schemes.
- Banking Services.
- First class, first class recorded delivery and special delivery of inland letters / packets up to 6kg.
- Second class and second class recorded delivery of inland letters / packets.
- International letters / packets up to 2kg.
- Acceptance of pre-paid home shopping returns packets / parcels.
- Mobile phone top up e-vouchers.

Home Service

The Home Service enables customers to order Post Office[®] products and/or services and have these delivered direct to their homes or alternatively the products or services will be available for collection by the customer at a Drop-In Session held at a fixed time and location.

Customers who register for the Home Service can telephone the Core Subpostmaster to order Post Office[®] products and services including:

- DWP Giro cheque encashment.
- Inland Revenue cheque encashment.
- Non-automated personal cheque encashment and deposits.
- Post Office[®] saving stamps.
- Non-automated Bill payment.
- Mails acceptance.

The Home Service is likely to be most suited to, for example, small communities of around 50 people or less. Although there will not be a physical Post Office[®] building in the community, the Home Service enables customers in these areas to access certain Post Office[®] products and services.

Post Office Limited is proposing to introduce a number of Outreach service points as part of this Area Plan. A list of the branches proposed for replacement with an Outreach service is provided in section 5 of this booklet and full details of the proposed new services are provided in the appropriate section towards the end of the appendix.

As part of the local public consultation, we would like to seek views from our customers and their representatives in relation to each individual proposal, in particular:

- our proposal to close the Post Office[®] branch concerned and replace it with an Outreach Service;
- the type of Outreach Service to be provided;
- our current Outreach Service proposal (for example, whether it is a suitable type of Outreach Service for the area and community concerned, whether there are any particular local factors that we should be aware of that may influence what type of Outreach Service is most appropriate for the area and community, whether there are any benefits or disadvantages regarding the type of Outreach Service in the area and community);
- whether the extent of Outreach Service (in terms of hours and Post Office[®] services provided) proposed is suitable for the area and community;
- suitable locations for the Outreach Service in the local community;
- all other potential Outreach Services for the area and the communities concerned. As explained above, while Post Office Limited is currently proposing to establish a specific Outreach Service, following local public consultation (and having regard to all relevant factors) it may decide to establish one of the other Outreach Services in the area concerned.

When commenting on our proposals we would particularly be interested in your views on the availability of public transport, alternative access to key Post Office[®] services, local demographics (such as age, sex, disability, race, religion and ethnicity) and the impact on customers and the local economy.

5. Additional Outreach outlets

Post Office Limited is committed to developing our service in ways which benefit customers and help us to ensure that the wider network is sustainable. We know that we have to continue to look at innovative ways to run our outlets. We announced in April that we will undertake trials of outreach outlets, similar to those already well established in rural communities, into urban communities.

Where we trial an outreach outlet, which will provide Post Office services for more flexible hours in an urban area, we will be adding to the overall future network which is proposed in this Area Plan and on which we are consulting locally.

We intend to trial additional outlets, on this basis at the locations detailed below and are therefore including these details alongside our proposal for the future of the network in Herefordshire, Worcestershire and the West Midlands, so that all our customers have all the information currently available about our plans.

Post Office[®] Rounds Green branch, 87 Brades Road, Oldbury, Warley, B69 2EB

Post Office[®] Tudorville branch, Walford Road, Tudorville, Ross-On-Wye, HR9 5PY

As these outlets will be provided on a trial basis, we will be looking at their performance and usage to determine whether they should remain in the longer term.
